AI analyst

advisory only

Provider: offline-explainable-baseline

Observed 1 events across 1 source(s). Risk score 29/100.
Evidence factors: critical asset, privileged identity.

Confidence: low • **Approval required:** No

Evidence factors

- critical asset
- privileged identity

Allowed next steps

- preserve_evidence
- verify_identity
- monitor

Uncertainties

- Synthetic classroom data
- No live endpoint state
- Model output requires analyst verification

Advisory only: Yes
